

Table 1 Growth Performance of *Narcissus tazetta* subsp. *chinensis* under Different Cultivation and Light Conditions

Groups	Cultivation method	Light condition	Temperature condition	Leaf length (cm)	Root length (cm)	Flowering
Group A	Hydroponics	Sufficient light	Daytime ~20°C, nighttime ~5°C	15-20 cm	6-8 cm	Fully bloomed, 9 flowers
Group B	Hydroponics	Low light	Daytime and nighttime ~ -1 to 5°C	7-13 cm	5-8 cm	Buds present, no bloom
Group C	Soil cultivation	Low light	Daytime and nighttime ~ -1 to 5°C	2-5 cm	-	No buds

Note: The data presented in the table are based on measurements as of January 24, 2025
