

Table 1 Statistical analysis of SSR loci in transcriptome of *Glehnia littoralis*

| Type | Statistic |
|---|------------|
| Number of sequence | 78 828 |
| Total length of sequence (bp) | 97 984 098 |
| Number of SSR loci | 14 421 |
| Number of sequence containing SSR loci | 12 166 |
| Number of sequence containing more than 1 SSR locus | 1 899 |
| Number of sequence containing composite SSR loci | 1 079 |
| Frequency of SSR loci (%) | 15.43 |
